

# We Come Into This Place

Steve Pruitt

**G**            **C**            **D**  
You are the reason we come here  
**G**            **C**            **D**  
Your presence fills our hearts' desire  
**Am**                            **G**  
Inhabit the praises of your people  
**C**                            **Am**            **D**  
Dwell here and manifest your power

**G**            **D**  
We come into this place  
          **C**                            **D**  
To praise the name of Jesus  
          **G**                            **D**  
We come into this place  
          **C**                            **D**  
To life your name on high  
          **G**    **D**    **C**                            **D**  
Your name alone is high above all others  
          **C**                            **D**                            **C-G**  
We love you and bless you with our praise
